## Temporary Load Center with RV Hook-UP

The Marwell "Temporary Load Center" is a device used in Emergency situations that require Temporary Power supplied from a damaged dwelling to a RV or FEMA dwelling. The Marwell device isolates power from the service and will not back feed the damaged dwelling, yet supplies power for a temporary RV and also supplies power for construction equipment.

Ringless style base - 1-120V GFI receptacle and 1 -30A RV receptacle  
Available with Twist lock receptacles as well

Marwell Part # 1800-TLC-60A
